DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 7-11, 14-27, drawn to a method of using, classified in class 606, subclass 213.

II. Claims 12-13, drawn to a method of making, classified in class 606, subclass 214.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and process of using the product.

The use as claimed cannot be practiced with a materially different product. Thus, restriction is proper between said method of making and method of using.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
